---

Mr. Struthers,

My name is Wan-Yee Kuo and I am filling in as the Project Manager for Greg Stevens starting today until next Wednesday. He will be available next Thursday.

As we have discussed on the phone this morning, the Meadowbrook pond project has received your appeal of the Master Use Permit. As you might be aware of, this project is on a very tight schedule. Since next Wednesday is a holiday, we are interested in knowing what is your availability next week to discuss this appeal.

We have your phone number of 206-552-9615 and your email as contact information. We appreciate you letting us know your availability for next week.

Thank you.
